Help with debt for those with mental health issues

We have a dedicated debt worker who is funded by the [Henry Smith Charity](#) to provide advice for those with mental health issues who are struggling with debts and financial capability. Our adviser can see people in either our Hertford or Bishop's Stortford offices or at the MIND office in Bishop's Stortford. Our adviser can give you free, confidential advice to help you make sense of your financial problems and to find a way forward. To access this service, you can either speak to the people at MIND in Bishop's Stortford or contact one of our offices for an initial assessment.
